

Strategic Plan and Action Plan Fiscal Year 2022

**Faculty of Management Sciences,
Prince of Songkla University**

Strategic Plan and Action Plan
Fiscal Year 2022

Faculty of Management Sciences, Prince of Songkla University

Preface

World-renowned strategists like Morris Chang, Executive Chairman of Taiwan Semiconductor Manufacturing Company and CEO of the world's first and largest silicon foundry, has said that: “Without strategy, execution is aimless. Without execution, strategy is useless.”

In order for the Faculty of Management Sciences at Prince of Songkla University, to enter its 47th year as the “nationally leading educational institution in management” we must be able to drive forward with our strategic plans which guarantees future success. Establishing an annual action plan therefore is absolutely necessary to carry on our strategic plan. The action plan will help all departments within the faculty to recognize the missions to be accomplished within a year, as well as to prioritize and implement concrete operational guidelines within the short term according to the specified indicators.

The 2022 Fiscal Year Action Plan was formed based on the direction of change and challenges facing the Faculty of Management Sciences today, combined by jointly determining the path of development of the action plan with the Faculty of Management Sciences’ community. The key plans, projects, activities and indicators have been identified and clearly reflect each step of the way. On behalf of the organization leaders, I sincerely hope for an annual action plan. At this time, this will be an effective blueprint, keeping the internal organization. The Faculty of Management Sciences has created clear goals and aims to meet the direction of the future together.

Assistant Professor Theerawat Hungsapruak
Dean, Faculty of Management Sciences

Executive Summary

The Faculty of Management Science, Prince of Songkla University has set out a vision to achieve within Year 2023, aiming to be the "nationally leading educational institution in management" under its mission statement: cultivating graduates, executives, and entrepreneurs with characteristics consistent with being graduates desirable in the 21 century under curriculum that is accredited according to international standards and that also drives communities and society towards sustainable development.

In order for the implementation of the above vision and missions to be fulfilled, projects are needed each year to achieve success and a common pride of the management sciences community. In the Fiscal Year 2022 (Oct 2021-Sept 2022), the plan sets out the operational direction under four key strategies as follows:

Strategy 1: Build a Community of Executives: Develop the competency of learners to be professional executives who have the ability to learn throughout life (Executive Community and Lifelong Learning). The goal is to have proactive management sciences which supports executives, entrepreneurs, alumni and individuals of all ages and promotes lifelong learning. In addition, aims to provide students with 21-century skills and build towards global citizenship under high-performance faculty and state-of-the-art knowledge, including providing accredited courses in accordance with international standards.

Strategy 2: Research Integration: Develop research and innovation for social impact with the goal of gaining high-quality research to be recognized nationally and internationally (Research and Innovation for Social Impact). This includes the creation of integrated research groups in creating research and management innovations that align with the direction of national development and driving communities/society.

Strategy 3: Empowering to serve society: Drive and strengthen communities and society with Sustainable Development Goals (SDGs). The aim is to achieve social engagement that contributes to intimacy and strength between faculty, community, and society. As well as to integrate teaching, learning, and research into academic services enhance communities and society under the aims of the Sustainable Development Goals (SDGs)

Strategy 4: Enhance the efficiency of the management system to international standards: Drive the organization to the global standard by applying a modern management system under a new way of life and good governance. The goal is to provide the faculty with an approach to management to international standards under personnel who

have potential to meet the vision of the Faculty and university. This will be reached by being a smart Faculty and to achieve stability and sustainable self-reliance.

In fiscal year 2022, there were 37 projects and activities under the annual action plan as follows:

1. Up Skill project to exchange knowledge between departments
2. Non-Degree/Module Curriculum Development project
3. Media interesting Funding project
4. Massive Open Online Courses (MOOC) Funding program
5. Information Technology Skills Development for Undergraduate Students program
6. FMS Smart Leaders project
7. SAP project
8. Internship project
9. Cooperative Education project
10. International Research Symposium project for first term
11. Academic Personnel Development program to Support Modern Teaching and Learning
12. Reinventing University project
13. International Research Symposium project for second term
14. Practical Research Training program for graduates
15. Researcher/Lecturer Support program for publication in both domestic and international journals
16. Mentor Teacher Development project
17. Research projects to drive AACSB
18. National Joint Research project (4 Institutions)
19. Preparatory project to develop research topics in accordance with Research Roadmap of the faculty, university, and in accordance with the development direction of the country, and to support its research funding.
20. EEC companies MOU project to develop research on the current challenges and support research projects in conjunction with non-government parties.
21. Project to understand the needs to develop research on the current challenges and allocate funding for research projects in 5 southern border provinces.
22. Project to transfer management innovations to the community
23. Annual Review and Action Plan project
24. Education Criteria for Performance Excellence program (EdPEX)
25. Job site seminar project
26. Personnel Development project organize by the faculty for supporting staff
27. Safety Training program
28. Computer Training program

29. Information System Development project for management
30. Review examinations project
31. Funding activity
32. AACSB Educational Training activity
33. Activity to develop and maintain the qualifications of instructors through AACSB international standards
34. The 14th National Conference on Administration and Management activity
35. Internal faculty governance activity
36. Individual Development Plan (IDP)
37. Practical manual for supporting personnel tasks funding

The financial budget of support in the amount of 10,193,000 baht, has been classified according to each strategy as follows:

- o Strategy 1, a total budget of 3,753,000 baht
- o Strategy 2, a total budget of 3,890,000 baht
- o Strategy 3, a total budget of 500,000 baht
- o Strategy 4, a total budget of 2,050,000 baht

In addition, in order to make the strategic drives to be fulfilled and to successfully tracked continuously, the faculty has set indicators and target values that are challenging each strategy. by integrating with the direction that the university hopes for. will lead to the push for the Faculty Stepping on the path "institution leading national level in management" gracefully in the near future

1. Faculty of Management Sciences Overview

1.1 Vision

“the national leading educational institution in management”

1.2 Mission

Cultivating graduates, executives and entrepreneurs with leadership skills and digital creativity for the benefit of mankind. The curriculum and research activities are accredited according to international standards, developed in innovation management and academic services to drive the community and society towards sustainable development.

1.3 Core Competencies

- 1) Having competence and expertise in the field of management
- 2) Being able to adapt to challenging situations and modern management concepts

1.4 Core Values

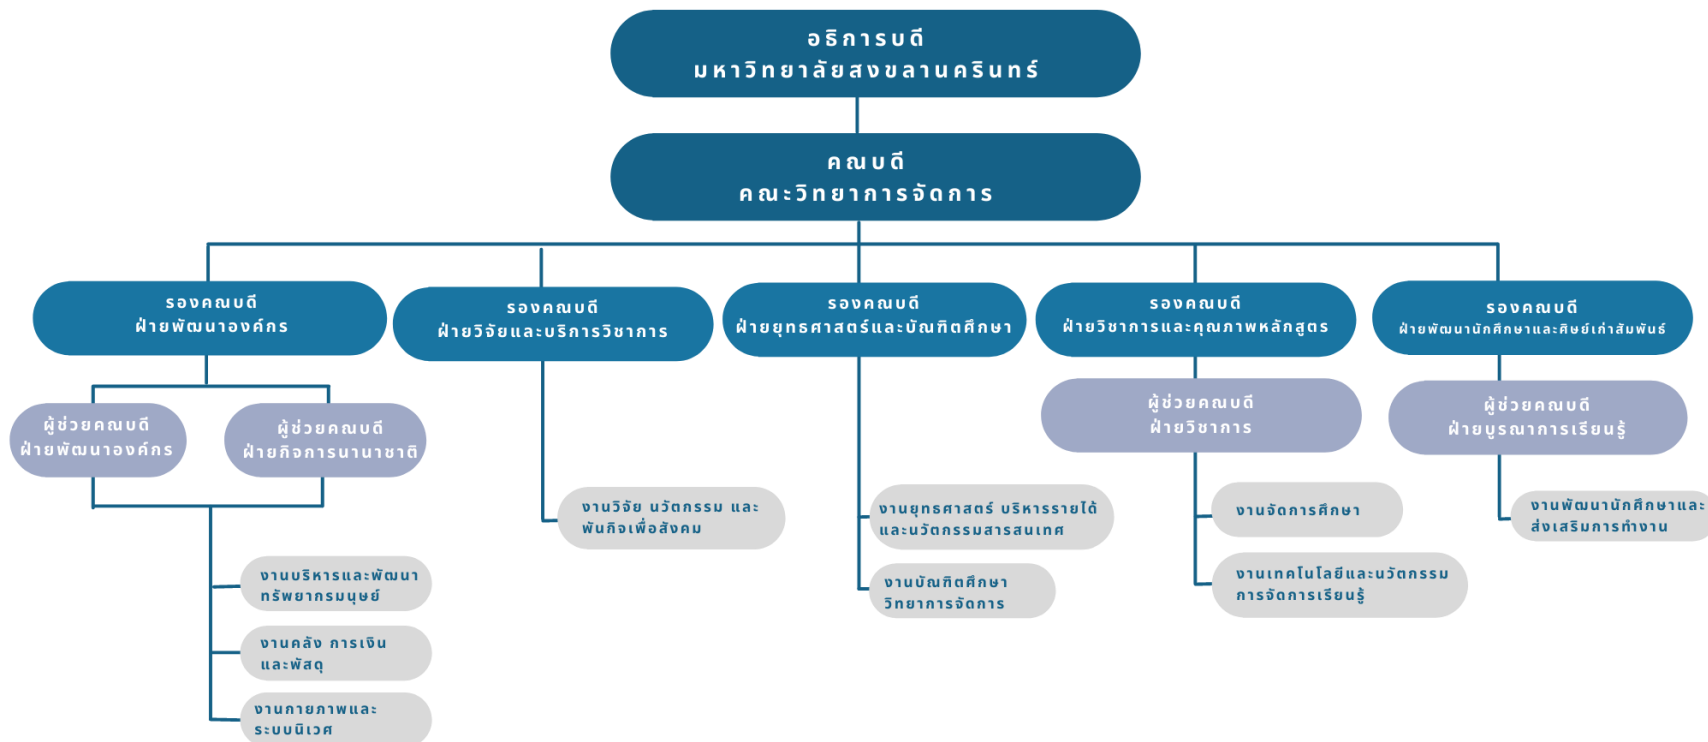

PRIDE

P	= Professionalism	Professional performance
R	= Research	Solving problems with research guidelines
I	= Integrity	Holding the principles of morality
D	= Diversity	Exchanging and integrating knowledge in various management sciences
E	= Excellence	Attempting excellence

1.5 Organizational Structure

โครงสร้างการบริหาร

ORGANIZATIONAL CHART

2. Strategic Structure, Faculty of Management Science

2.1 Build a community of administrators: Develop the competency of learners to be professional executives who have the ability to learn throughout life (Executive Community and Lifelong Learning).

Goals

1. To have a proactive education management system that promotes lifelong learning in management sciences for executives, entrepreneurs, alumni and individuals of all ages.
2. To provide students with 21-century skills and build towards global citizenship
3. To enhance the performance of faculty to have modern skills and knowledge, and keep pace with up-to-date technology that's agree upon and acceptable to communities and society.
4. To create alliances and integrate academic cooperation networks to raise the level of the capacity of the faculty
5. To ensure that the curriculum is accredited according to international standards.

Strategies

1. Develop/improve management curriculum to meet the needs of the labor market by integrating cross sciences and entrepreneurial networks, as well as support credit accumulation (Credit bank).
2. Manage education that enhances management capacity supportive for executives, entrepreneurs, alumni and individuals of all ages.
3. Support mechanisms and activities to develop learner capacity in line with the skills of the 21 century, such as focusing on leadership, digital performance and creativity to become a global citizen.
4. Create educational opportunities for disadvantaged and vulnerable groups.
5. Promote/develop faculty to have skills and knowledge in modern teaching, learning, and management as technology changes, which is also agreed upon and accepted to communities and society.
6. Build alliances and networks with academic cooperation and alumni networks
7. Push the curriculum to be accredited in accordance with international standards.
8. Create an atmosphere and support academic activities in line with international standards.
